FORBIDDEN LOVE

In 1986 the Duchess of Windsor died in Paris, a lonely old woman. **0)** ...*0*... Yet fifty years earlier, as Mrs Wallis Simpson, she had been at the centre of the abdication of Edward VIII. Her father had been a wealthy American businessman but his sudden death meant she was brought up in relatively poor circumstances. Her mother remained socially ambitious and Wallis took after her. In 1916 she married for the first time, her husband was the dashing airman, Winfield Spencer. Sadly, he turned out to be a drunkard and Wallis left him. **1.**

She returned to New York where she met Ernest Simpson, an Anglo-American who had come into a family fortune. They married in London in 1929 and Wallis soon established herself as a successful high-society hostess. She first met the Prince of Wales on 10th July 1931 and they soon received an invitation to be his guests. She soon became bored with Ernest, and a firm relationship developed between her and Edward, the heir to the throne.

They went on a skiing holiday to Austria which was extended to include visits to Budapest and Vienna. This meant calling off several official engagements which made King George V absolutely furious. **2.** Out of loyalty to the Royal Family, the British press kept the story of the relationship a secret and any foreign papers which reported it were kept out of Britain. On January 20th 1936 King George died and from that moment Edward became king and the final crisis was near. Edward's mother, Queen Mary, looked down on Wallis and was completely against any idea of marriage. **3.** For his part Edward neglected his duties.

The story finally became public when the Bishop of Bradford publicly denounced the affair. Wallis ran away to France. **4.** The King would have to choose between Wallis and the throne. On 11th December 1936, he abdicated, and left England for a life of exile with the woman he loved.

With the new title of the Duke of Windsor he eventually married Wallis in France. No members of his family were present. As the ultimate insult, Edward received a message from his brother saying although Wallis could call herself the Duchess of Windsor the title of "Your Royal Highness" would be denied to her. **5.** In the period before the Second World War the Duke damaged his reputation by flirting with fascism and meeting Adolf Hitler in Germany. When the war broke out he became governor of Bermuda but was viewed with suspicion by those who believed he would be prepared to re-occupy the throne if Germany was victorious. **6.** In 1953, shortly before the coronation of the Duke's niece, Queen Elizabeth II, the couple moved to a magnificent chateau in the Bois de Boulogne in Paris. His health rapidly declined as he entered his seventies and in 1972 he died. His body was buried in St George's Chapel, Windsor.
